

RAMedicaid demo installation & use

To install the demonstration, we recommend you set up a folder labeled MEDICAID NSF, and put RAMedicaid Demo.zip in this folder.

When you unzip this file, you should have an executable program (NSFDEMO.EXE) and a demo file (demofile.nsf).

Double click on the program (NSFDEMO.EXE). The program will bring up a window with a button "OPEN FILE".

Click on this button and then click on the demo file. You can then select one of the report options.

For a working copy of **RAMedicaid**, complete the license/order form and mail along with your check to:
